Volume 14, Issue #05

IMPORTANT: This issue contains important operating information for all users of RSTARS and ADPICS. Please distribute promptly.

In this issue:

- **CONTROL REPORT DISTRIBUTION PROBLEM**

CONTROL REPORT DISTRIBUTION PROBLEM

For the nightly batch run of November 9, 2007, the following control reports were not available in RMDS.

DAFR1511 Generated Receipt Transactions
DAFR2151 RSTARS Error Report
DAFR2201 RSTARS Batch Summary Report
DAFR2261 Daily History Detail Report

We will distribute these reports in RMDS today (Tuesday, November 13, 2007), however, some of the reports will appear twice. We will take care of the duplication as a separate process during the day. Therefore, users may see a duplication that will be fixed later.
